THE INTERNATIONAL BUREAU NOW FORMALLY IDENTIFIES PAPER-FILED VS ELECTRONICALLY-FILED APPLICATIONS ON BOTH IBFS PUBLIC NOTICE REPORTS AND ON IBFS WEB SITE QUERY RESULTS

In keeping with the International Bureau's commitment to customer service, IBFS, the International Bureau electronic filing system, has recently been enhanced to facilitate identification of electronically filed applications. Interested parties may now determine whether an application, which has been accepted for filing and for which an action has been taken, was filed via paper or electronically by two methods. First, on all IBFS Public Notice Reports, every application file number is followed by either an "E" or a "P". "E" designates electronically-filed applications and P designates paper-filed applications. IBFS Public Notices Reports are available either in hard copy at the Commission or by accessing the IBFS Public Notice Reports through the IBFS Web Site at www.fcc.gov/ibfs.

The following demonstrates how applications appearing in IBFS Public Notice Reports identify electronically- and paper-filed applications using "E" and "P."

ITC-214-20020117-00008 E ABC Communications Corp
International Telecommunications Certificate
Service(s): Global or Limited Global Resale Service
Application for authority to provide service in accordance with the provisions of Section 63.18(e)(2) of the rules.

ITC-214-20020501-00010 P XYZ Telecommunications Company
International Telecommunications Certificate
Service(s): Global or Limited Global Facilities-Based AND Resale Service
Application for authority to operate as a facilities based carrier in accordance with the provisions of Section 63.18(e)(1) of the rules, and also to provide service in accordance with the provisions of Section 63.18(e)(2) of the rules.

Second, the IBFS Web Site search capability also offers customers the ability to determine how an application was filed as soon as it has been accepted for filing. By using the Search

Tool feature, all application query results now display either an “E” or a “P” immediately after the file number to designate either electronically-filed or paper-filed applications, respectively. The following demonstrates a search result identifying an application as paper-filed.

The screenshot shows a Microsoft Internet Explorer window titled "FCC INTERNATIONAL BUREAU - Microsoft Internet Explorer". The address bar displays "http://svartifoss2.fcc.gov/cgi-bin/ws.exe/prod/lb/forms/reports/swr023b.htm". The main content area features the FCC logo and the text "INTERNATIONAL BUREAU", "FCC SELECTED APPLICATION STATUS BY FILE NUMBER", and "REPORT WR023 - Tue Jul 23 14:00:28 US/Eastern 2002". Below this, it states "File Number is like SESLIC2002042200743". A table lists application details, and below the table are several hyperlinks for further information. The footer of the page reads "FCC - Federal Communications Commission - IBFS Internet Reports - Tue Jul 23 14:00:31 US/Eastern 2002". The Windows taskbar at the bottom shows the Start button and several open applications, including GroupWise, Novell-delivered, and the FCC International Bureau application.

File Number	P/E	Name	Last Action	Action Date	Status	Status Date
SES-LIC-20020422-00743	P	OM MEDIA NETWORKS INC.	Grant of Authority	07/17/2002	Action Complete	07/17/2002
